

## Essentials of Medicinal Cannabis

### Post-Course Activity

**Submission of your post-course activity:** Submit your post-course activity by Friday 28 September 2018 by email to: [info@medicinalcannabiseducation.org.au](mailto:info@medicinalcannabiseducation.org.au)

Please note that submissions after this date will not be accepted.

**Please ensure your name and RACGP number are included on your submission.**

#### Task

Develop one evidence-based FAQ or Patient Information Sheet suitable for your practice/clinic on medicinal cannabis. Include references. For example, you might like to consider the following misperceptions associated with cannabis use:

- 1) Cannabis lowers your IQ
- 2) Cannabis causes schizophrenia/psychosis
- 3) Cannabis is a gateway drug
- 4) Cannabis is a drug of dependence
- 4) Cannabis is toxic/harmful
- 5) Cannabis smoking causes lung cancer
- 6) All cannabis gets you high

Please indicate if you are willing to share the resources you have submitted with others in the course.
